Good morning,

I did some research on the charges for the Animal Control MOW and found the attached info from the ledger. It appears we are getting charged every quarter for that \$113K. The only other attachment I see is the signed copy of the MOA. I don't see how the charges are getting initiated or any other documents with signatures though. The attached spreadsheets were made by Willy Chow though, so perhaps that is who we need to contact to make sure to be in the loop on the charges when they are occurring.
