Attachments: FAS ACO MOA_2025.docx (40.39 kB)

Ignore the email title and most of the content except for the part about FAS only having capacity to dedicate 2 ACOs below.
I think we keep the MOA as currently drafted (up to 3 based on actual hours worked) but wanted to confirm?

Hi Amy.

Yes, they think it's closer to 2 FTEs that they have staffing currently to commit to at this time. Although if they can get the right complement of staff, and fully staffed up they would be able to dedicate up to three, as they know there are complaints on off leash particularly. I'll talk with Jocelyn and Sherri if something on staffing has changed up, but I can check in if maybe we charge only for 2 FTEs back to you until we can get to 3 FTEs, but keep the MOA flexible up to 3 FTE? I could be dated on the info so I'll check back in with them.

Hi Tricia. This is great news on the fleet billing. Thanks again for working through it with Precy and I'll circle back with Iris and Tom.

We were actually just finalizing the MOA on our side, assuming 3 given all the complaints we get about off leash dogs. Are you saying that they don't have capacity to dedicate 3 ACOs?

Good morning, Amy.

After meeting with Precy (accounting) she confirmed this is indeed the item we worked out with Iris, when we met with her, to provide you all the info. She can still process the re-allocation to your programs in the same way, no change to her and how you'll see the info. It's really to make the process easier for our FAS Fleet group as they are changing their modeling system.

Let me know if you want me to still set up a meeting, otherwise I think you can rest easy on this one.

+side note – we're holding on charging you all on Animal Control work until we hear from you. I think we are only able to do park control for up to 1.5 – 2.0 FTEs, so maybe that's really what the update MOA or agreement should be? I'll check in with Jocelyn on my side as they were going to pull labor hours to confirm.

Thanks,
Tricia

Hi Amy. Okay, I think you're okay and this is being handled like normal for Iris to receive in the way she needs to you can re-allocate out to your programs.

I need to talk with Daniel Belay (Fleet) and Precy (FAS acctg) again to confirm this is what we already worked out to supply you the info in the way you need, we talked it over with Iris and she was good, but they're both flexing today. I'll set up a meeting for next week, and sorry about this.

TGIF,
Tricia

Hi Tricia. We're all a bit stumped by this email. Would you mind if I set up a quick call with you, me, Iris and Tom (and anyone else on your team)?

Subject: Changes to Billing for EPPS and Lease Maintenance

Hello, fleet colleagues –

(bcc: Citywide fleet coordinators, managers, and advisors)

I'm reaching out to let you know of changes to our billing processes. Starting this year, the charges for Equipment Planning and Procurement (EPPS) and Lease Maintenance will no longer be processed as monthly recurring charges in Fleet Anywhere. Instead, FAS Accounting and Budgeting Services (ABS) will handle these charges as direct allocations in PeopleSoft.

This change is being made to align actuals with what is Council-adopted and published in the Central Cost Manual (CCM). The previous practice of charging rates per vehicle led to over or under collection due to the dynamic nature of vehicles being added or disposed of from the fleet. With this new approach, the standard allocations by department will remain consistent each month, with charges distributed to the asset/vehicle level in PeopleSoft. While the monthly totals will be the same, the distribution and resulting charge per asset may change if your fleet count is increased or reduced.

As a result, you will no longer see a monthly EPPS or Maintenance fee in Fleet Anywhere (see the example below). However, you can still access these charges and asset details in PeopleSoft. Additionally, Lucy is developing a PowerBI report that will allow us to pull this data outside of PeopleSoft. Please note that Monthly Capital Lease rates will continue to be processed in Fleet Anywhere with no changes.

These updates should have already been communicated by FAS ABS to your departmental finance teams. If you have any concerns about impacts on specialized reports your teams have built in PeopleSoft or other systems, I encourage you to reach out to your departmental representatives. I've attached the adopted CCM by function for your reference, and you can filter for your department using the Updated Payor filter. The relevant CCM functions are the Fleet Engineering & Planning and Preventative Maintenance (Lease Maintenance) line items.

Please feel free to reach out with any questions or concerns, thanks!

Recurring Costs

Monthly EPPS	0.00
Monthly Maintenance	0.00
Monthly Capital Repl	977.77
Fixed licensing cost	0.00
Other fixed cost 1	0.00
Other fixed cost 2	0.00
Other fixed cost 3	0.00
